# Master's diploma thesis

in the field of study Computer Science and Information Systems
and specialisation Artificial Intelligence

## Multi-model LLM system with dynamic planning and model selection optimization

Jakub Knyspel

student record book number 313282

thesis supervisor
dr hab. Maria Ganzha, prof. nzw.

WARSAW 2026

**Abstract**

Multi-model LLM system with dynamic planning and model selection optimization

TODO

**Keywords:** TODO, ...

**Streszczenie**

Implementacja wielomodelowego systemu LLM z dynamicznym planowaniem i optymalizacją doboru modeli

TODO

**Słowa kluczowe:** TODO, ...

# Contents

**1. Introduction** . . . . . **11**

**2. System Requirements & Constraints** . . . . . **12**

**3. Description of the System** . . . . . **13**

**4. Scoring** . . . . . **14**

**5. Response Length Prediction** . . . . . **15**

**6. Analysis of the Solution** . . . . . **16**

**7. Conclusion** . . . . . **17**

# 1. Introduction

TODO

## 2. System Requirements & Constraints

TODO: What did I decide to do? What constraints did I settle on?

# 3. Description of the System

TODO: Description of system components, communication, etc. TODO: Also include model selection based on price and score.

# 4. Scoring

TODO

# 5. Response Length Prediction

TODO: Should it be a separate chapter?

# 6. Analysis of the Solution

TODO: Tests of all parts of the system, etc.

# 7. Conclusion

TODO

## List of symbols and abbreviations
